Life Science | Pharma | Academia | Research | Informatics

## ZEISS Microscopy for Life Science Applications

### GeminiSEM Family

Field Emission Scanning Electron Microscope (FE-SEM) For Highest Demands in Sub-nanometer Imaging, Analytics and Sample Flexibility

### EVO Family

Scanning Electron Microscope (SEM) for Research into plants, animals and micro-organisms

### Laser Scanning Microscope with Airyscan 2

Unique Confocal Experience for Fast and Gentle Multiplex Imaging

### Axio Imager 2

Bright Field, Fluorescence, Phase Contrast and Polarizing microscope for Pharmaceutical QC & Life Science Research

### Axioscan 7

High-performance Slide Scanner for Fluorescence, Brightfield and Polarization

### Celldiscoverer 7

Automated Microscope for Live Cell Imaging

## ZEISS Microscopy for Life Science Applications

### Axiovert 5 Inverted digital

All-in-One Cell Imaging System.

### Axiolab 5

Smart Microscope for life Science, Pharma Industry with Easy Digital Documentation

### Stemi Series

Stemi 508 Trinocular

Stemi 305 Trinocular

Stemi 305 Binocular

Stereo Zoom Binocular and Trinocular Microscope for Biology

### Primostar 3

Microscope for Digital Teaching and Routine Lab

### Microscopy Software

Complete Solution from Sample to Knowledge

### Microscopy Camera

Axiocam 820 Color

Axiocam 712 mono

Axiocam 503 Color

Axiocam 305 Color

Axiocam 208 color

Axiocam 105 Color

Axiocam Family for Documentation, Academics, Research & Fluorescence Applications

Rapid Kinetic Endotoxin testing System (Portable)  
Endosafe® nexgen-PTS™

Rapid Kinetic Endotoxin testing System  
(Multiple Samples) Endosafe® nexgen-MCS™

Rapid Sterility Testing System (4-7 days) Celsis Advance II™

Gel-Clot & End-Point LAL Reagents

## Applied Genomics and Life Science Solutions

Chemagic-360 Instrument for Nucleic Acid Extraction

Newborn Screening by UHPLC-MSMS QSight® 225 MD

VICTOR Nivo

VICTOR Nivo with Dispenser Module

EnSight

EnVision

Multimode Microplate Readers

Lab Chip GX Touch for Electrophoresis

Live / in vivo Animal Imaging IVS® Lumina X5

Cellometer Auto 2000 Cell Viability Counter (Dual-fluorescence cell counter to analyze primary cells from peripheral blood, cord blood, bone marrow, and other complex samples)

## Next Generation Whole Genome Sequencing

Eukaryotic Long-Read, Short-Read & Bioinformatics

REVIQ system (long-reads high throughput)

- Empowers HiFi sequencing
- High throughput, and ease of use to a foundation of long reads, exceptional accuracy, and direct methylation detection
- Advanced sequencing consumables, robotics, and massive compute power to deliver accurate long reads with methylation information directly from the sequencer in every run

Library	Run time	HiFi yield		Base quality	Methylation
		1 Revio SMRT Cell	4 Revio SMRT Cells		
15–20 kb	24 hours	90 Gb	360 Gb	90% Q30+	5mC at CpG sites

Sample	Per Revio SMRT Cell	Per year	Expected coverage
Human genome	1	1,300	30x
Single-cell transcriptome	1	1,300	80 million reads
Large gene panel (20 Mb)	12	15,600	90% target positions $\geq 10\times$

SEQUEL system family (long-reads whole genome de novo assemblies of eukaryotic organisms)

- Whole genome sequencing
- Variant detection
- RNA sequencing
- Targeted sequencing
- Metagenomics
- Epigenetics

### The Sequel system family of instruments

	Sequel IIe system	Sequel II system	Sequel system
Supported SMRT Cell	SMRT Cell 8M	SMRT Cell 8M	SMRT Cell 1M
Number of HiFi reads >99% accuracy	Up to 4,000,000	Up to 4,000,000	Up to 500,000
Sequencing runtime per SMRT Cell	Up to 30 hrs	Up to 30 hrs	Up to 20 hrs
Instrument control software	v10.1	v10.1	v8.0
SMRT Link	v11.1	v11.1	v10.2

ONSO system (short-reads)

- Extraordinary level of accuracy through its unique sequencing by binding (SBB™) technology
- With inherently lower sequencing noise, the Onso system enables researchers to uncover rare variants previously missed and do so at lower sequencing depths
- Liquid biopsy testing for minimal residual disease (MRD)
- Antibiotic resistance monitoring in microbial communities
- Off-target analysis in gene editing experiments

## New Generation DNA Sequencing Platform

MinION

**Read length: DNA/RNA from short to ultra-long (longest >4 Mb)**  
**High output: Up to 48 Gb per MinION Flow Cell / 2.8 Gb per Flongle Flow Cell** [Theoretical max output when system is run for 72 hours (or 16 hours for Flongle) at 400 bases / second]

**Suitable applications:**

- Whole genomes/exomes
- Metagenomics
- Targeted sequencing
- Whole transcriptome (cDNA)
- Smaller transcriptomes (direct RNA)
- Multiplexing for smaller samples

MinION Mk1D

The **MinION Mk1D** is the next generation of the portable sequencing, designed to be compatible with the new iPad Pro (in combination with the MinION Mk1D iPad Accessory), modern laptops, and MacBooks, via USB-C connectivity

GridION

**Compact benchtop device designed to run and analyse up to five Flongle or MinION Flow Cells**

**240 Gb output: Up to 48 Gb per MinION Flow Cell / 2.8 Gb per Flongle Flow Cell**

**Suitable applications:**

- Larger genomes or projects
- Whole transcriptomes (direct RNA or cDNA)
- Large numbers of samples

PromethION 24 / 48

**Read length: DNA/RNA from short to ultra-long (longest >4 Mb)**

**Up to 277 Gb per flow cell**

**Total device output as much as:**

- Up to 6.6 Tb PromethION 24
- Up to 13.3 Tb PromethION 48

[Theoretical max output when system is run for 72 hours at 400 bases / second. Outputs may vary according to library type, run conditions, etc.]

## Ultrapure Type-1 Water Purification Systems

### Milli-Q® IQ 7000 series

Models: IQ 7003, 7005, 7010, 7015 (add IQ Element for ICP)  
 From Tap to Type-1 Water

**Milli-Q® Q-POD**  
 Type-1 Water outlet

**Milli-Q® Q-POD**  
 Type-1 Water outlet

### Milli-Q® EQ 7000 series

Models: EQ 7008, 7016  
 From Tap to Type-1 Water

Model: Milli-Q® SQ 240L

Model: Milli-Q® SQ 240XL

### Milli-Q® SQ 2Series

From Tap to Type-1 & Type-3 (RO) Water

### Milli-Q® Elix® Essential series

Models: Elix Essential 3, 5, 10, 15  
 From Tap to Type-2 Water

**Milli-Q® Purification Cartridges**

### Milli-Q® POD-Paks (Final Filters)

Types: Millipak®, Millipak® Gold  
 Biopak®, VOC-Pak®, EDS-Pak®  
 LC-Pak®

## Molecular Biology & Genetics Solutions

Takara Molecular Biology Reagents

PCR Master Mix

NucleoZOL for RNA Extraction

Virus Extraction Kits from Macherey-Nagel

Extraction Kits from Takara

### Next-generation sequencing

- RNA-seq
- DNA-seq
- Single-cell NGS automation
- Reproductive health
- Bioinformatics tools
- Whole genome amplification
- Immune profiling
- Epigenetics and small RNA sequencing
- NGS accessories

### Protein research

- Purification products
- Antibodies and immunoprecipitation
- SDS-PAGE & western blotting
- Protein sequencing
- Accessory enzymes

### mRNA and cDNA synthesis

- In vitro transcription
- cDNA synthesis kits
- Reverse transcriptases
- RACE kits
- Purified cDNA & genomic DNA
- Purified total RNA and mRNA
- mRNA and cDNA synthesis accessories

### PCR

- Most popular polymerases
- Standard PCR
- High-yield PCR
- High-fidelity PCR
- Fast PCR
- Long-range PCR
- GC rich PCR
- Direct PCR
- PCR master mixes
- Molecular diagnostic products
- GMP-grade products
- Application-specific PCR
- Other PCR-related products
- PCR thermal cyclers

### Real-time PCR

- Real-time PCR kits
- Reverse transcription prior to qPCR
- High-throughput qPCR solutions
- Real-time PCR primer sets
- References and standards for qPCR
- RNA extraction and analysis for real-time qPCR

### COVID-19 research, Gene function Stem cell research, Cloning, Antibodies and ELISA Diagnostic solutions

## Genomic Solutions

Model: Mermade 12

### Oligonucleotide (DNA/RNA) Synthesizer

- Nucleic Acid Extraction & Purification
- Competent Cells
- Cloning Kits & Vectors
- KASP Genotyping
- Enzymes
- SNP Genotyping

## Illumina-compatible, High Efficiency and 'COST-EFFECTIVE' Fragment DNA Library Kit

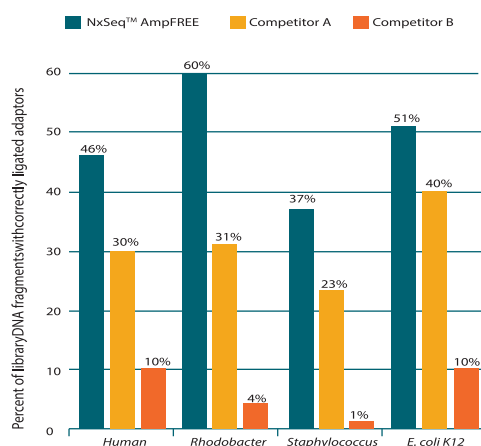

### SNPLINE Workflow:

Originally developed to enable high throughput genotyping using our - KASP™ genotyping chemistry in the LGC's laboratories, the SNPLINE workflow is essentially a high throughput PCR workflow and, as such, it also lends itself to almost all high-throughput PCR applications, including other PCR-based genotyping methods, and high throughput expression profiling using RT-PCR.

We offer two standard configurations of the SNPLINE workflow:

**SNPLINE Lite** for lower throughput applications (up to 20,000 data points per day; 96 and 384-well plates only)

**SNPLINE XL** for higher throughput applications (up to 200,000 data points per day; 96, 384, and 1536-well plates).

### NxSeq AmpFREE Low DNA Library Kit

- **Minimal bias:** PCR-free generation of libraries from ≥75 ng of sheared input DNA produces more uniform coverage.
  - **Fast:** 2 hour, 10 minute protocol
  - **Flexible:** Construct libraries from 75 ng to 1 µg of sheared input DNA
- Cost-effective**

### NxSeq UltraLow DNA Library Kits v2

- **Sensitive:** Construct DNA fragment libraries from as little as 50 pg to as much as 100 ng of sheared/fragmented DNA
  - **Flexible:** Extensively tested in whole genome sequencing and re-sequencing, and compatible with other applications, such as exome-seq, ChIP-seq and sequencing of difficult FFPE DNA samples
  - **Fast and easy-to-use:** Simplified, 3 hour protocol
- Cost-effective**

**Water & Environment Testing Solutions**

## Thermax offers an entire range of Resins & Chemicals for Water Treatment

### ION EXCHANGE RESINS

#### Specialty Resins

- Groundwater Remediation and Purification
- Polymeric Catalyst Resin
- Resin for Recovery and Purification
- Adsorbent Resin
- Chelating Resin
- Resin for Food and Beverages
- Waste Water Treatment Resin
- Resin for Other Potential Applications

#### Industrial Water Treatment Resins

- Softening
- Demineralisation
- De-alkalisation
- Mixed Bed Resin
- Condensate Polishing
- Nuclear Industry
- Ultrapure Water

### WATER TREATMENT CHEMICALS

- Cooling Water Treatment
- Boiler Water Treatment
- Ro Membrane Treatment
- Polyelectrolytes
- Green Chemicals
- Sugar Process Chemicals
- Online Monitoring And Automated
- Dosing System
- Efficient Microbes

## Better Solution in fire Protection

WAGNER sets standards in fire protection - with innovative and comprehensive solutions

**Fire detection and alarm systems**

Very early fire detection systems (TITANUS®)

Active fire prevention (OxyReduct®)

### Industry solution

#### Deep freeze storage facilities

Fire protection under extreme conditions is no problem with WAGNER: Preventative fire protection instead of damage control.

**TITANUS®**

Earliest smoke detection

### Industry solution

#### Warehouses & logistics

WAGNER's active fire prevention provides ideal protection for stored goods and delivery processes.

**OxyReduct®**

Active fire prevention

### Industry solution

#### Data centre

Maximum availability is the number one priority for data centres; WAGNER offers fire protection that meets the demands of modern IT services.

#### Early fire detection with TITANUS® air sampling smoke detectors

Data centres' high densities of electric and electronic components can result in cable short circuits and smouldering fires. As a result of the rapid air circulation in these highly climate-controlled rooms, smouldering fires frequently go undetected, and may even develop for several days unnoticed. WAGNER developed its first aspirating smoke detection system specifically designed for data centre requirements as early as 1984.

# How STARLIMS Helps to become a paperless Lab

## Paperless Lab Solutions

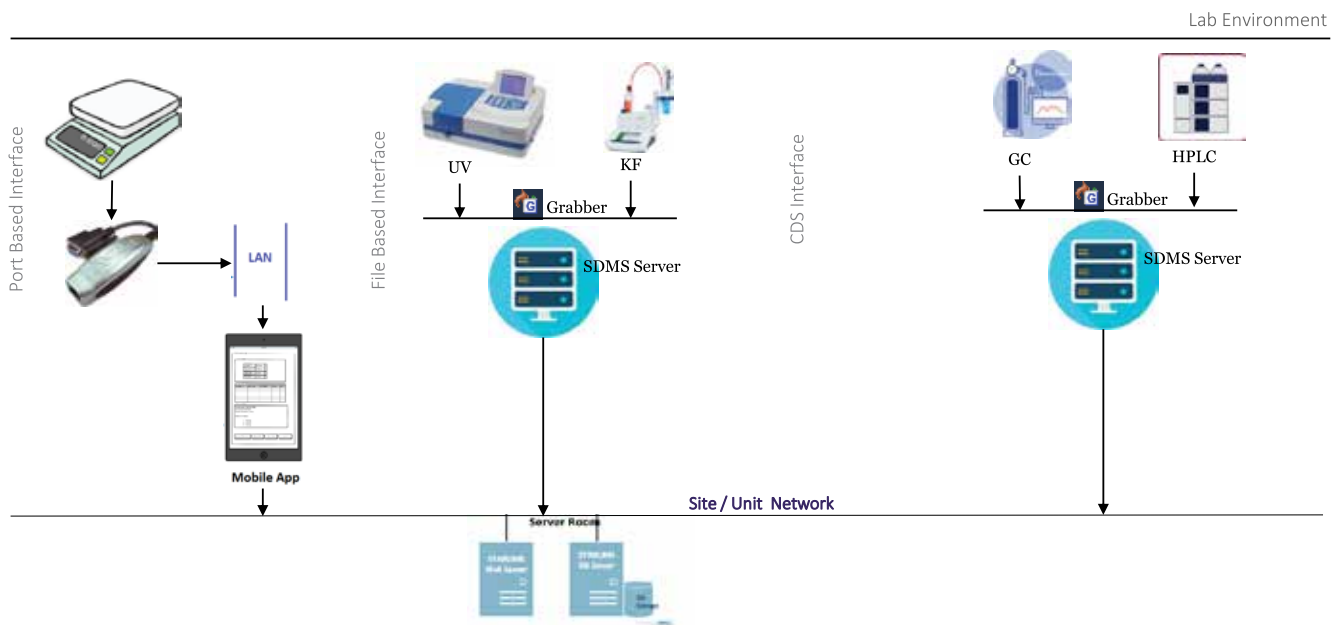

## Equipment Integration Types and Data Flow

- DEVICE INTEGRATION**
- RS232 Serial Port Interface
  - Label Scanning & Printing
  - Image / Document capture

- FILE INTEGRATION**
- XML
  - Word / Excel Automation
  - PDF

- CDS Interface**
- Bi-directional
  - Uni-directional / file based

## Quality Control software for imprinted packaging

### What is ImageCompare?

ImageCompare is a digital inspection software for printed packaging material. You can check nearly every scannable material or PDF files against your released master file.

### Who needs ImageCompare?

This software was developed for the pharmaceutical, food and consumer goods industries. Packaging material can be tested according to FDA regulations and the process is recorded compliantly.

### Why do you need ImageCompare?

You need ImageCompare to ensure that all the information (e.g. nutrition facts, ingredients, dosage, barcodes) on your packaging material is correct and that your high quality standards and requirements can be maintained in an efficient and safe manner.

### Scope of application

- Printed packaging material (e.g. folding boxes, films, leaflets, labels, ...)
- PDF comparison

### Features e.g.

- Language independent inspection by pixel comparison
- Audit Trail, electronic signature
- Comparison of graphical and text elements
- Multiple comparison (e.g. labels, films, a.s.o.)
- Barcode decoding and inspection
- Braille inspection (ECMA standard, DIN EN 17351)  
→ Translation into plain text, height measurement

师，又没有什么乘客在身边，所以，  
独自修理它了。当时对我来说，这是  
生死攸关的事情。因为当飞前，我  
是生活八天所需的饮水。

Schriftgröße 1  
Schriftgröße 2  
Schriftgröße 3  
Schriftgröße 4  
Schriftgröße 5  
Schriftgröße 6  
Schriftgröße 7

### Savings potential with ImageCompare

ROI / payback period = 0.5 – 1 year

- ↓ Reduction of inspection errors
- ↓ Reduction of inspection time  
manual: large format leaflets up to 1-2 hours  
digital: large format leaflets 3-5 minutes
- ↓ Reduction of approval time

## QMS | DMS | TMS | HPQR

Honeywell, a global industry leader recognized for its commitment to excellence, proudly introduces an expanded portfolio of cutting-edge solutions that redefine quality management and the digital future for life sciences and other regulated industries. As part of our continuous pursuit of innovation and customer-centricity, we have integrated the renowned TrackWise and TrackWise Digital offerings of Sparta Systems into our comprehensive suite of products.

### TRACKWISE DIGITAL® QUALITY MANAGEMENT SOFTWARE

Honeywell's TrackWise Digital® is a cloud-based quality and compliance solution that offers fully integrated solutions for managing quality, documents, training, complaints, risk and supplier quality. Built on nearly three decades of quality experience, TrackWise Digital combines industry-leading quality and compliance best practices with the user-friendly and trusted Salesforce platform. With QualityWise.ai, TrackWise Digital is also the industry's first quality management solution with AI-augmented decision making capabilities, enabling a shift from reactive to proactive quality management.

### Quality Management Solutions

SUPPLIER QUALITY MANAGEMENT

TRAINING MANAGEMENT

**Key Benefits:**

**CREATE POWERFUL BUSINESS INSIGHTS** : Improve company-wide performance by tracking and analyzing quality data across all quality processes to increase operational excellence at every stage of the product lifecycle.

**INCREASE WORKFORCE EFFICIENCY** : Reduce errors and accelerate productivity by enabling quality teams with smarter systems, best practice processes, automation and cross-functional collaboration.

**SUPPORT REGULATORY COMPLIANCE** : Proactively manage regulatory compliance with out-of-the-box best practice industry templates, automated validation and 21 CFR part 11 compliance.

**HONEYWELL PRODUCT QUALITY REVIEW (HPQR)**: Annual product quality review (APQR) reports, also known as PQR or APR, are a requirement for manufacturers of drug products to comply with good manufacturing practice (GMP) regulations and maintain high-quality products.

### Honeywell Product Quality Review (HPQR)

**Configurable Workflows**  
Automate the approval workflow with notifications when actions are required by a user

**Concurrent Collaboration**  
Various departments can contribute and collaborate on the report simultaneously

**Analytics Toolkit**  
Statistical analysis and control charts using familiar tools to quickly identify outliers and focus areas

**Auto PDF generation**  
With the click of a button users can generate a final APQR in PDF format

**Audit Trail & eSignature**  
Remain compliant with 21 CFR Part 11 by sending documents electronically for approvals

**Key Benefits:**

**IMPROVE EFFICIENCY AND DATA INTEGRITY** : HPQR enables users to quickly access and analyze data from multiple systems, reducing manual errors and redundancy. Automating data collection and analysis enhances operational efficiency while maintaining data integrity.

**ANYTIME REVIEWS** : By simplifying and automating the process, users can create virtual or interim PQRs, allowing them to routinely assess the state of their processes and review the progress of their continuous improvement initiatives.

**SIMPLIFY REPORT CREATION AND COLLABORATION** : HPQR allows users to automate complex analysis of quality data and collaborate seamlessly across departments. Real-time collaboration ensures swift identification and resolution of product quality issues.

Name	Brand	Product Line
<b>Carl Zeiss Microscopy GmbH Germany</b>		Light Microscope - Binocular & Trinocular •Upright Microscope •Inverted microscope •Stereo Microscope Particle Analysis System, Fluorescence, Phase Contrast Microscope & Polarizing Microscope, Confocal Laser Scanning Microscope (LSM), Scanning Electron Microscope (SEM), Field Emission Scanning Electron Microscope (FE SEM), Field Ion Beam Microscope (FIB SEM), X-Ray Microscope, Camera & 21 CFR, Part 11 compliance software.
<b>Becton, Dickinson and Company (BD), USA</b>		Dehydrated Culture Media, Media Base and Supplement, Ready to Use Plate Medium, Environmental Jars and Gas pack, Automatic Microbial Identification System, RaDipid Automatic Microbial Identification System with MALDI-TOF Technology
<b>Charles River Laboratories Inc, USA</b>		Gel Clot LAL Reagent and Accessories, Rapid Endotoxin Testing System with cartridge Technology, Rapid Sterility Testing System, Kinetic LAL Analyzer and reagents
<b>Revvity, Formely PerkinElmer, Inc. USA (Life Science &amp; Applied Genomics)</b>		Automated Nucleic Acid Extraction System, Automated Gel Electrophoresis System, Automated Liquid Handling System & Robotics, New Born Screening, Multimode Plate Reader, Liquid Scintillation Counter, High Content Screening System, In Vivo Imaging etc.
<b>Pacific Biosciences of California, Inc, USA</b>		Next Generation Whole Genome sequencing (Eukaryotic Long-Read, Short-Read), Targeted sequencing, RNA sequencing, Epigenetics, Microbiome & Metagenomics, Software & Bioinformatics
<b>Oxford Nanopore Technologies PLC. United Kingdom</b>		New generation of DNA/RNA sequencing technology - Flow cells and Nanopore devices, Whole genome, Targeted RNA & cDNA sequencing, Metagenomics, Short fragment mode, Software and informatics tools
<b>Merck (Milli-Q), Germany</b> * All Customers except Pharma and Softlines		Ultrapure Type-1, Type-2, Type-3 water purification systems to support Life Science & Analytical Laboratories
<b>TAKARA BIO JAPAN</b>		Stem cell research, genetic engineering research reagents, nucleic acid & protein purification tools, fluorescent proteins & antibodies, cDNA synthesis & library construction kits, cloning & expression vectors, and PCR reagents
<b>LGC Biosearch Technologies USA</b>		Oligo DNA /RNA Synthesizer System, Custom Oligonucleotides, Cloning Kits & Vectors, KASP Genotyping Reagent, Nucleic Acid Extraction and Purification Kits, Competent Cells
<b>HACH Company, USA</b>		UV-VIS/VIS Spectrophotometer, Colorimeter, Arsenic Kit, pH, DO, TDS, Conductivity meter, Salinity, Turbidity Meter, COD, BOD, All kinds of Water and Waste Water Testing Commodities & Equipment.
<b>Cole-Parmer, USA</b>		All sorts of Laboratory Equipment like- Flame Photometer, Water Distillation, Rotary Evaporator System, Histology Products, Ultrasonic Cleaners, Thermal Cyclers, Real-Time qPCR System, Incubating Shakers, Different type Shakers, Homogenizers and Ultrasonic Processors, Pipettes and Pipettors, Baths and Circulators, Desiccators Cleanroom Consumables. Automated Tissue Homogenizer and Cell Lyser for Biological, Automated Tissue Homogenizer and Cell Lyser, Cryogenic Grinders, High-Energy Ball Mill, Inorganic & Organic Standards, Trusted Partner for Air, Water, and Soil Testing Solutions, Laboratory Consumables..
<b>Andreas Hettich GmbH &amp; Co. KG Germany</b>		All Type of Centrifuge Machine & Refrigerated Centrifuge Machine, Microbiological Incubator & Cool Incubator
<b>ALS Australia</b>		US-FDA & cGMP Certified testing labs to perform - Analytical Testing, Batch Release Testing, Elemental Impurities, Extractables & Leachables, Method Development & Validation, Microbiological Testing, Stability Storage, Food Testing
<b>Thermax Limited India</b>		Manufacture - ion exchange resins and water & wastewater treatment chemicals to improve processes across a spectrum of industries through customized and cost-effective solutions
<b>Auxochromofours Solutions Pvt. Ltd, India</b>		Health & Risk Assessment- Permitted Daily Exposure (PDE), Occupational Exposure Limit (OEL), Genotoxic Impurity Qualification, Cohort of Concerns, Tox profile, etc.
<b>WAGNER Group GmbH Germany</b>		Fire detection and alarm systems Very early fire detection systems (TITANUS®) Active fire prevention (OxyReduct®)
<b>STARLIMS Corporation, USA</b>		Laboratory DATA Management with World-Class LIMS Solutions & Services LIMS, SDMS, ELN, Advanced Analytics, Mobility
<b>Ladegast, Germany</b>		Quality control software for imprinted packaging inspections for pharmaceuticals, food and consumer goods industries. The ImageCompare software system is completely FDA compliant.
<b>Honeywell, USA</b>		Quality Management System (QMS), Document Management System (DMS) Training Management System (TMS), Annual Product Quality Review (APQR)
